

VIRTUAL WORK EXPERIENCE

Companies are starting to develop 'virtual' placements. You work remotely using digital technology, without having to go into the workplace.

You can also learn to deal with situations in the workplace without having to go out on a placement. [Accenture's Skills to Succeed Academy](#) and [Barclays Lifeskills](#) can help you to develop these skills.

[FutureLearn](#) has a virtual work experience course for exploring the work of a vet.

Search online for other online work experience, virtual internships and insight into work opportunities.
